PERSONAL PROTECTIVE EQUIPMENT (PPE) DISPENSING SYSTEM

MURAL

Does changing suppliers change the product size ?

Change only the modular accessory necessary with the **Green-Medic*** plan

All your actual accessories can be adapted on any of our systems.

No glue, no tools!

Our PPE Dispensing Systems are extremely reliable thanks to their capacity to adapt to new environments with their sturdy and stable construction. They are also part of our **Green-Medic*** replacement plan.

This PPE Dispensing System can be turned in any direction, thanks to a hinge permitting it to revolve, this giving easy access to the back to clean with ease, making this product indispensable.

The PPE Dispensing System is optimised by a simple and easy way to change module, thanks to a system of screws requiring no tools.

All medical personnel will have access to a specialized Dispensing System organized for and to specific requirements of your work environment.

The PPE Dispensing Systems are assemble in five (5) different forms: 6", 9", 12", 18" or 24" width by 36 inches in height.

We can suggest a different configuration of modules for each system.

We can also create a system to your specific needs.

PERSONAL PROTECTIVE EQUIPMENT (PPE) DISPENSING SYSTEM

MOBILE

Our PPE Mobile Dispensing Systems are resistant, easy to relocate and can be adapted to any new environment.

These systems can always be modified by a simple and easy adjustment.

Our **Green-Medic*** module replacement plan, makes this product even more interesting.

This PPE Mobile Dispensing Systems has five (5) wells and is easy and convenient to move from one room to another, to and from emergency rooms, corridors, even in the elevator.

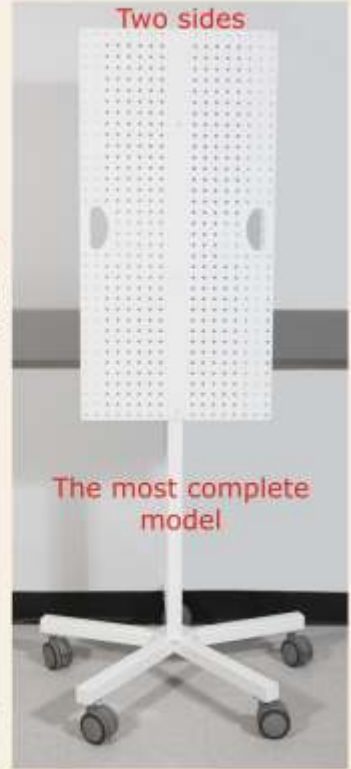

Where ever you need to go this system can go along and allow you to have, at all times, any of the accessories needed for infection prevention.

Equipped with two (2) plaques, makes this system doubly operational.

D MODEL

Place of use: Corridor, floor to floor, emergency and isolation room

Mobility: Frequent

Two sides

The most complete model

One side

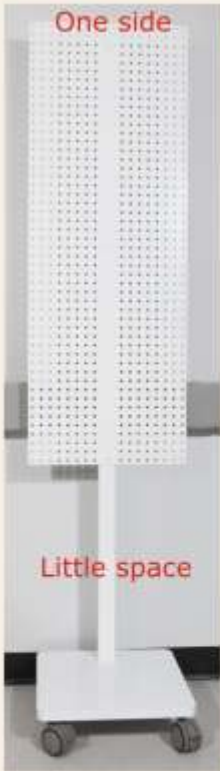

ISO MODEL

Place of use: Corridor, outside of an isolation room

Mobility: Medium

This PPE Mobile Dispensing System is designed to easily move material necessary to protect patients, visitors and personnel.

This system takes very little space and can be easily moved between rooms or placed on a wall in a corridor.

Little space

One side

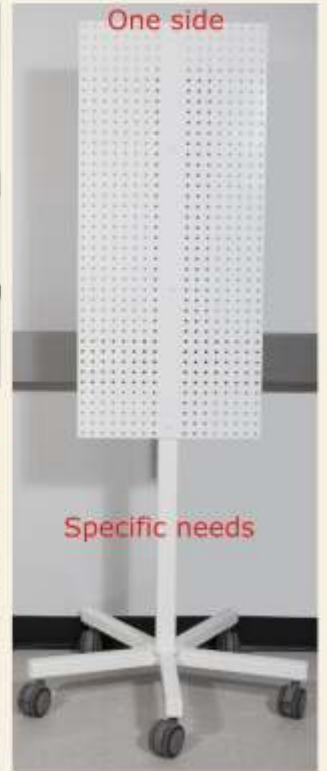

CORRIDOR MODEL

Place of use: Corridor, bed

Mobility: Medium

This PPE Mobile Dispensing System was designed for a specific need to be easily placed between two aligned beds in a corridor.

The modifications to the base makes this station secure and takes little space.

Specific needs

STEEL WIRE MODULE

Thanks to its greatly reduced surface, accumulation of dust or dirt is minimal.

Steel Wire module can be cleaned easily and quickly using regular disinfecting products.

Electrostatically applied paint made of thermoplastic powder, baked in a high-temperature oven, and white enamel finish resistant to corrosive cleansers and impact will protect the steel against corrosion for decades to come.

MEDIC ACCES INNOVATE

Medic-Access is in constant evolution and is always keeping in mind its first mandate: to innovate and stay on the cutting edge of the ever changing needs in technology, in our distribution and our innovative creations of products in preventing infections and to optimize the work of our clientele.

Thus we have transformed our PPE Dispensing Systems to better serve you. For example, our mural and mobile stations are now adaptable to all environments thanks to interchangeable modules to suit specific needs. In addition no tools are needed for any change you would like to make to your systems.

We hope that these new PPE Dispensing Systems will be considered an essential tool in hospitals by their innovative design, ease of adaptation and their versatility as to the satisfaction of their specific utility.

We are especially pleased to announce a new ecological recovery policy **Green-Medic***. We will exchange our modules that are obsolete and give you a 25% discount on your new replacement modules more appropriate to meet your needs.

We strongly believe we have accomplished another step in our mission: to serve you better in finding solutions for your requirements and to contribute to the effectiveness of your work.
